以下步驟說明可幫助您完成下列基本設定：

- 網路設定 - LAN端的 IP 位址
- 無線設定 - 5GHz 11ac 11an SSID及安全
- 管理 - 管理者及時間和日期

建議您在使用本產品之前，請先完成基本設定。

1. 更改本產品的LAN IP位址，請至“**網路設定**” > “**LAN端的IP位址**”，如下畫面所示。

LAN port IP address	
DHCP guest port	<input type="button" value="DHCP guest port"/>
IP address	<input type="text" value="192.168.2.2"/>
Subnet mask	<input type="text" value="255.255.255.0"/>

Secondary DNS address	<input type="button" value="From DHCP"/> <input type="text" value="0.0.0.0"/>

2. 輸入您要為本產品設定的IP位址，它可以從路由器或防火牆或DHCP Server獲取的浮動IP位址(DHCP 訪客端)，也可以是固定IP位址，視您的網路環境而定。輸入完成後，請點選“啟用”儲存您的變更，並請耐心等待本產品重新開機並套用新設定值。

當您更改了OAP900的IP位址之後，您必須使用新的IP位址來登入設定網頁，而非原出廠預設的IP位址**192.168.2.2**

3. 若您要更改本產品 5GHz頻段的SSID名稱，請至“無線設定”>“5GHz 11ac 11an”>“基本”，在SSID1欄位輸入新的SSID名稱，再點選“啟用”。

要使用多組5GHz SSID，請點選“啟用SSID號碼”的下拉選單，然後選擇所需的SSID 數量。在下面相應的SSID編號欄位輸入新的SSID名稱，再點選 (啟用)。

自動頻道預設是啟動的，您也可以關閉後依現場需求自定頻道號碼，若要啟用自動頻道功能，若於台灣地區使用建議“自動頻道範圍”優先選擇“Band4”。

若您想要將本產品的時間設定為和您的電腦一樣，您可以點選“自您的PC取得目前時間”按鍵。

7. 本產品的基本設定已經完成。

II-3. 管理的AP模式：Managed AP mode

Edimax Pro NMS：可集中管理一組多台的EDIMAX PRO無線基地台(或也可說是AP Array架構)，在沒有APC500無線基地台控制器的情況下，NMS最多能管理16台EDIMAX PRO無線基地台，而在有APC 500無線基地台控制器的架構下，則最多能管理32台EDIMAX PRO無線基地台，不僅降低成本，且可有效率遠端管理無線基地台。

Edimax Pro NMS的系統架構如下圖示意：

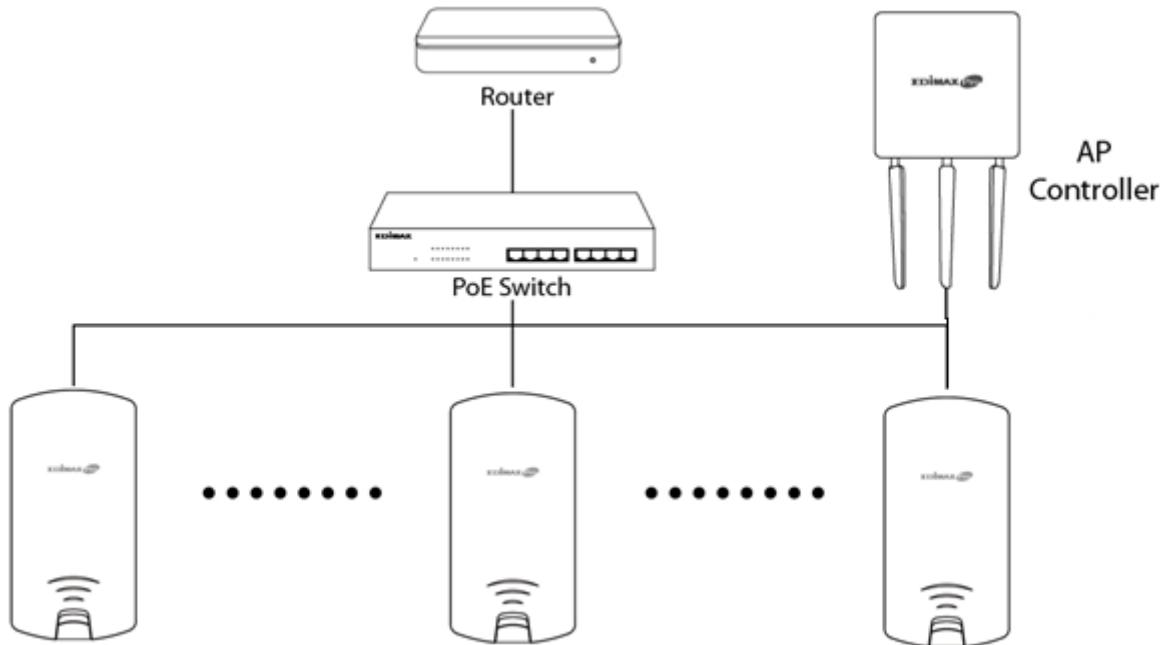

可指定一台無線基地台作為EDIMAX PRO NMS無線基地台控制器(即所謂Master AP)，那麼當其他的全新的無線基地台開機連網後就會自動偵測內部網路是否有無線基地台控制器，若有就會被自動加入到該控制器的管控群組裡，成為被管控AP基地台(即Slave AP)。

OAP900無法設為無線基地台控制器 AP Controller。

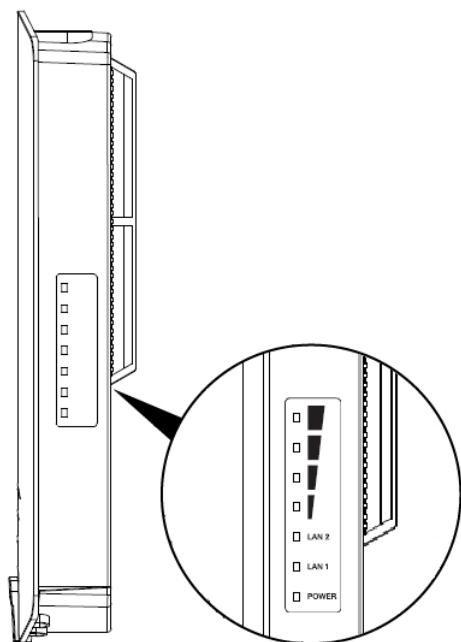

當您於內部網路啟動一台 Edimax NMS 無線基地台控制器(AP Controller)時，其他連接的無線基地台會自動被設定為管理的AP。若無線基地台控制器無法找到你的OAP900，您也可以手動設定。

1. 請確認您已指派一台無線基地台作為控制器，用以管理其他的無線基地台。
2. 請確認您的OAP900連接至已連結防火牆/路由器/乙太網路交換器或PoE網路交換器。

 您可以使用您的路由器作為DHCP伺服器或可稍後將您的無線基地台控制器設定為DHCP伺服器。

3. 請檢查LED指示燈，確認所有的無線基地台已啟動。

4. 使用網路線將NB/電腦和OAP900連接到PoE交換器。

5. 開啟網路瀏覽器，在網址列輸入OAP900自動獲取的新IP位址，實際IP位址請進入路由器和DHCP Server裡確認。

6. 登入時請輸入預設使用者帳號**admin**及密碼**1234**。

7. 進入OAP900管理介面並點選“操作模式”，選擇“管理的AP模式”。

8. 請點選“啟用”將您的設定儲存，如此您的無線基地台則成為管理的無線基地台並且能透過 APC500 無線基地台控制器或Edimax NMS來管理和監控。

 請參閱無線基地台控制器的使用者手冊，關於Edimax NMS的說明。

III-4. 訪客端橋接模式 (Client Bridge Mode)

訪客端橋接模式可使OAP900連接到另一台無線基地台AP的SSID，讓無線網路橋接到有線網路介面，同時保持與上層無線AP於相同的IP網段範圍內。這是解決last-mile最理想的解決方案。

1. 先從網頁瀏覽器的URL欄中輸入OAP900的IP地址。預設為192.168.2.2。但如果OAP900是連接到DHCP服務器，請確定使用正確的IP地址進行連線。

2. 輸入預設的管理者名稱 “admin” 及密碼 “1234”，然後點選 “無線設定” → “無線延伸”。

3. 點選 “掃描” 按鈕，開始搜尋並顯示目前環境中有效的無線網路基地台 SSID名稱，發現有您所要連接無線基地台的 SSID 時，請點選 “Select” 欄位該SSID前的圓鈕。

4. 接著輸入該無線基地台 SSID 的無線加密方式和預共享密鑰等相關資料，最後再點選“連線”就完成設定。

Wir bieten Ihnen für einen Zeitraum von drei Jahren an, eine vollständige maschinenlesbare Kopie des Quelltextes der Programme zur Verfügung zu stellen – zu nicht höheren Kosten als denen, die durch den physikalischen Kopievorgang anfallen.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc. 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps : (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The “Program”, below, refers to any such program or work, and a “work based on the Program” means either the Program or any derivative work under copyright law : that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term “modification”.) Each licensee is addressed as “you”.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions :

- a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
- c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception : if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following :

- a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to

modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES
